Junior Software Developer

Builterra is growing and we are now accepting applications for the role of Junior Software Developer to join our Platform Development Team, based in Oshawa. If you're a skilled software developer with UX/UI experience building mobile apps in Xamarin that has worked on SaaS platforms who can work independently, we should talk.

Builterra is a civil engineering software provider in the fast-growing Architecture, Engineering and Construction (AEC) space. We launched our BIM-inspired contract administration platform two short years ago and already count dozens of big names in the industry as clients. Currently a small start-up, we're about to enter our next phase of growth so this is an amazing opportunity for the right candidate.

About the Job

As Builterra's Junior Developer, you'll report directly to the VP of Platform Development and be part of an agile development team building and working on enterprise grade software systems on top of the Microsoft Azure cloud. The Junior Software Developer is involved in all areas of development from design and development through to testing and QA.

Key Responsibilities

- Work with an agile team to design, develop, test, and maintain web and mobile-based business applications built on Microsoft cloud technologies.
- Prepare reports, manuals and other documentation on the status, operation and maintenance of software.
- Package and support deployment of releases.
- Analyze and resolve technical and application issues (You're an excellent bug hunter/killer!)
- Adhere to high-quality development principles while delivering solutions on-time and on-budget.
- Work alongside our technical support specialist to provide client support.

Qualifications

- College or University degree in Computer Science or a related discipline
- 3-5 years of programming experience
- Knowledge of ASP.Net MVC framework
- Solid understanding of object oriented programming concepts
- Language(s): C#, JavaScript, HTML, CSS, XHTML, Mono

Why Builterra?

If you're an up & coming developer looking for a challenge--and an opportunity to grow, Builterra could be your new home.

We may be small, but not for long so this is your opportunity to get in on the ground floor of a start-up that's going places. We lead by example, working hard and fast to achieve our goals and we expect the same of everyone on our team. We'll support you and cheer you on while trusting you to get the job done.

We believe in rewarding high performing team members with flexibility and a competitive salary. If you're a talented developer and working from our Oshawa office sounds appealing, we'd love to meet you.
